

Transparent Public Investment Project

2020 – 2025

USAID
FROM THE AMERICAN PEOPLE

Transparent Public Investment Project

PURPOSE

Strengthen the integrity of key government processes to reduce corruption in public investment and procurement

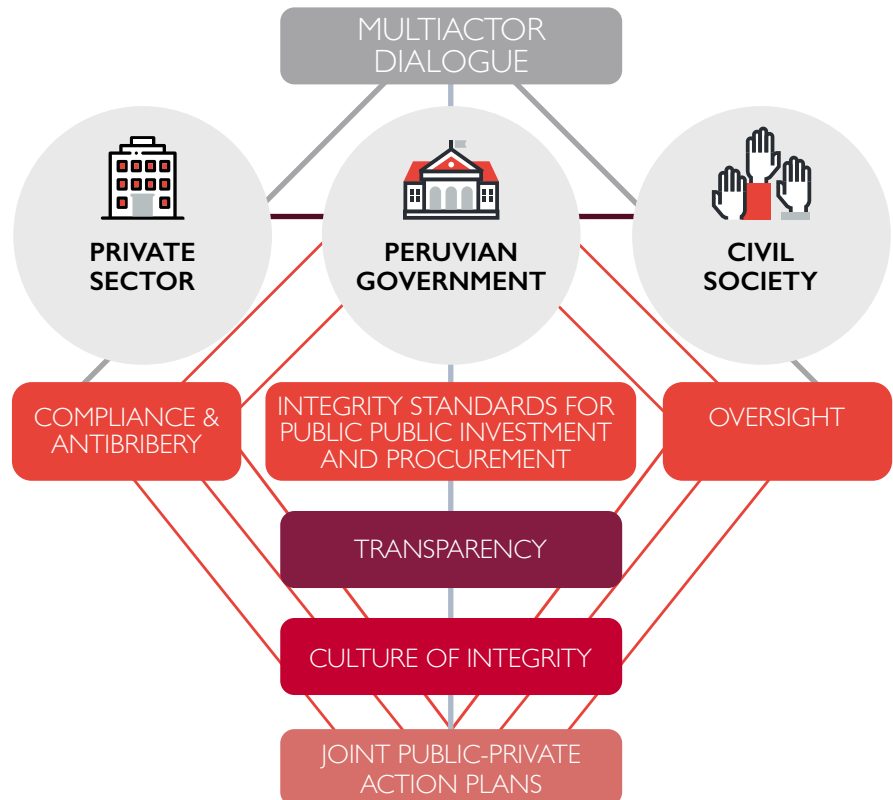

HOW

Improving the government's and civil society's capacity to:

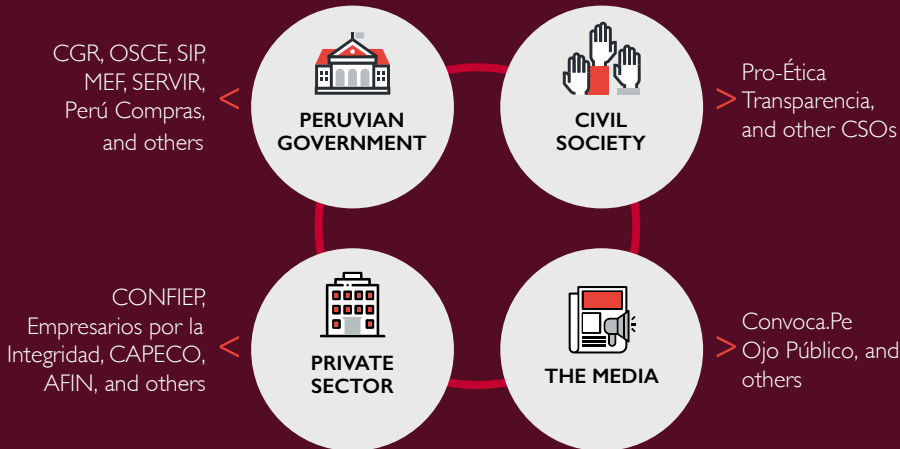

INTEGRITY NETWORK APPROACH

Work to bring together actors in new ways to improve public investment processes to formalize commitments and incentivize collaboration and accountability through action plans and responsible parties focused on prioritized public investment projects

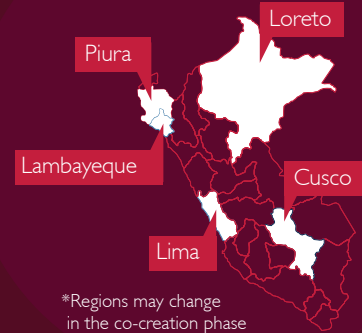

WITH WHO?

Actors responsible for the control and supervision of public contracting and the promotion of public integrity

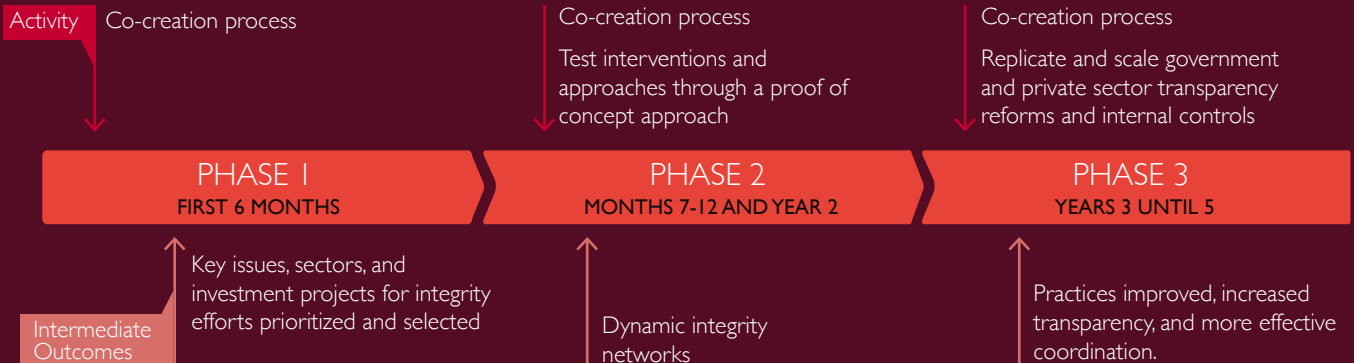

Five regions of Peru*

WHEN?

The project is implemented through a three-phased process in order to maximize stakeholder engagement in the design, development and implementation of activities

MAIN OUTCOMES

Strengthen appropriate control and supervision mechanisms to reduce corruption in the public investment and procurement processes

Enhance civic oversight of public investment and procurement processes to ensure the transparent and efficient use of public resources in their localities

Build alliances with the private sector to promote public and private sector integrity and combat corruption
